MONEY, STOCKS AND GRAIN

Speculation in Shares Has a Stronger

Tone with Dealings Not Heavy.

Easy Feeling in Money Is Helping Wall Street

Operations-At Indianapolis Wheat Was Steady, but Corn Declined.

THE BOND MARKET.

Bathway Issues Dull and Steady, with Sales Up to \$1,143,000. At New York, yesterday, money on call was easy at 2@1 per cent., the last loan

being made at 2, closing offered at 2. Prime mercantile paper, 6@7 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.864 for

eaxty days and 14.874 @4.88 for demand. The total sales of stocks were 270,900 shares, including the following: Burlington, 7,600; Chicago Gas, 7,400; Lackawanna, 22,000; Distriling, 12,600; Louisville & Nashville, 3,200; Manhattan, 11,300; Missouri Pacific, 4,500; National Lead, 6,500; National Cordage, 3,200; New England, 14,500; Northern Pacific preferred, 9,000; Reading, 20,400; St. Paul, 17,600; Sugar, 40,300; Western Union, 7,800.

There was a decidedly stronger tone to speculation at the Stock Exchange yesterday. The dealings were not particularly beavy, but were well distributed, and but few stocks failed to share in the improvement that took place. In the general list the advance was equal to 12 a 34 per cent. The buying was stimulated by the easy feeling in money, the lact that little or no gold will be forwarded by Saturday's steamers, and by the belief that the government will shortly nounce the issue of a gold loan for the purpose of increasing the treasury gold reserve and thereby adding to the confidence of the general public as to the intention of the administration to keep the various notes of the government on a parity. The last mentioned is undoubtedly the most important factor at the moment operating in favor of higher prices, and, notwithstanding the denials that Mr. J. Pierpont Morgan has gone abroad for the purpose of floating \$50,000,000 bonds, Wall street inclines to the view that something will be done. The character of the buying was far better than of late and the market had good support and reactions. The market left off firm, with a majority of the leading shares is to 1% per cent, higher than on yesterday. The sales aggregated

Railroad bonds were dull and steady. The sales were \$1,143,000. Reading issues were firm. The tours moved up 4 to 7812. Government bonds were steady. State bonds were neglected. Closing quotations

WHEAT BETTER SUPPORTED

Suspicious Talk Concerning Immense Crop Damage and Smaller Receipts.

Pardridge and Other Well-Known Bears Foun to Be Taking "Stuff' in Big Lets on the Quiet Influencing the Market.

TRADING AT CHICAGO,

Provisions Saved from Absolute Dullness by Local Buying, the Close Being Weak, CHICAGO, March 23 .- There was a better support in wheat to-day than any one expected. Pardridge did some bidding, Lloyd Smith and others took May wheat and the Barretts and Norton-Worthington led the buying in July. The Northwest wheat receipts were 349 cars, against 681 a year ago. Chicago receipts were 113 cars instead of 140 cars estimated. The wires were down to the Northwestern points and gave rise to talk of a hard blizzard. A few commission houses had the worst crop reports yet received. One message named four counties in Kansas and Nebraska that will be plowed up and replanted in other crops. A review of the clearances for four days looked encouraging at about 200,000 bushels in wheat and flour. Certain brokers, thought to be acting for Pardridge, were picking up wheat at every opportunity. Altogether the feeling was much more bullish, without any special activity. The best business of the day was just at the close, when shorts- were quite anxions buyers. It was rumored that the. Kansas State report was out, and very bullish on wheat. Later it was found that the only "report" received was a Kansas City message to Seaverns quoting Secretary Mobler as saying that western Kansas will practically raise no wheat. The market at the opening was about the same as yesterday's closing, and ruled firm, with prices for May advancing to and those for July &c, then held steady, fluctuating but slightly, and the closing was steady within

Any permanent effects of this talk was offset, however, by the generally accepted statement that cribs at country stations are well supplied with corn awaiting a favorable market for shipment. Specu- at 13@134c. Cheese firm. lative offerings were small and local shorts were moderate buyers, the price working up about 3sc. There was an unconfirmed rumor that local elevators were reducing their limits in the way of asked prices on corn for shipment to the East. There was a light trade in oats, the greater part of it being local. The market

the close at a slight advance over yester-Hog products would have been lifeless for the first hour after the opening save for the desire of some of the local holders to sell. There was a slight reaction after the first rush was over, and then the market ruled steady until later in the session, when it suffered a decline on free offerings and closed weak. He Was On. Detroit Free Press. At one time in the great State of Ohio the members of the Legislature had got themselves into extremely bad repute, and it was openly charged that anybody who had money enough could buy them for his own use in any legislation he wanted. One day one of the members stepped into a Columbus store where an assignee's sale was going on, and wanted to buy a hat.

"How are your figures?" he asked of the "Oh, you can have anything you want a vour own price.' The legislator smiled, for he thought he

THE

INDIANAPOLIS JOURNAL

DAILY.

SUNDAY

AND

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still Instruments filed for record in the recorder's | further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the ad-390.00 | vantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and im-500.00 portance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has 1,350.00 | been increased until it has a representative in nearly every town in the State. Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in mest towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in trans-

The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instruct d to give especial attention to everything having

a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful supervision for each department.

The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany, agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it subscribers. Special inducements offered to agents. Circulars sent on appli-
